

Executive Book Study Series

What Every Successful Entrepreneur Knows

Session 9 (April 26 – June 4, 2010) BUSINESS COUNCIL I SPECIAL

SOP MD, a division of Select Tech Professional Services, is pleased to offer Mike Anderson's **Business Council I** members a special executive book study that leads you through one of the most important business and management books of modern times. SOP MD will lead you, and a group of your Business Council I peers, through a chapter by chapter study of **The E-Myth Revisited- Why Most Small Businesses Don't Work and What To Do About It**. **ALSO ON AUDIO CD!**

Sign up today to join your Business Council I peers in studying this great piece of work, **The E-Myth Revisited** by Michael Gerber. You'll receive online access to a chapter by chapter list of *Points to Ponder* before reading each chapter and post-chapter study questions. You'll be invited to participate in an online forum with your peers where you may discuss various issues that the book brings to light in today's collision repair industry. You'll also be invited to participate in two online meetings/conference calls, one early and one late in the study. You can also earn **38 AMI credits** for your participation as well if you choose. In addition, you'll be encouraged to create some CTA's, *Commitments To Action*, so you can take important steps forward with your business.
